

The ALK Allergy App is designed with you in mind

Get the most out of your allergy immunotherapy (AIT)

Welcome to the new ALK Allergy App!

The App will help you with your specific allergy. How? By giving you information on how AIT works in your body. It will support you with tips and tricks so that you get the most out of AIT. You'll also have ways to track your progress with therapy that you can share with your allergist. And, the App will remind you about taking your medication and keeping your appointments to see your allergist. What's more, these messages can be read in only a few seconds.*

Using the ALK Allergy App is as easy as 1, 2, 3

1. Download the App (Q1.6) from the Apple® App Store® or Google Play™
2. Enter this activation code: **ALK49**
3. Answer a few simple questions (no personal information required!)

AIT treats the cause of your allergy, not just the symptoms. But, it can take time for you to see results. That's why ALK will be at your side with the ALK Allergy App to help you live a life less limited by allergy.

Find out if you're eligible for the ALK Allergy Tablet Savings Card

The ALK Allergy Tablet Savings Card can help eligible privately insured individuals save on their ALK AIT prescriptions. Find out about the ALK Support Program at www.ALKSavings.com to learn more and enroll.
